GENERAL HAMPTON'S REPORT.

improvement in Railway Earnings-The Union Pacific Sale.

WASHINGTON, November 9.-General Wade Hampton, who has just been suc-ceeded by General Longstreet as Comeeeded by General Longstreet as Commissioner of Railroads, has submitted to the Interior Department his report for the past fiscal year. He says that the year reached the low-water mark of railway construction. During the year thirty-four companies, with 5,41 miles of road, passed into the hands of the courts, and fifty-eint others, previously placed in receivership, were sold at foreclosure.

A steady improvement in railroad earnings during the first six months of the current year is noted. An improvement is also apparent in the bond-aided Pacific roads. The outlook in the West generally for the past year is reported as very encouraging.

for the past year is reported as very encouraging.
General Hampton, though discounting any attempt to criticise the course of the government in the Union Pacific matter, says he believed that a settlement more advantageous to the government could have been obtained if all the companies, particularly the Union and Central Pacific roads, could have been negotiated with at the same time, through a commission appointed by the President, and, possibly, all in the same way, than by settling at different times and on different bases. Government ownership, or operation under government supervision, he says, would be not only a doubtful but a dangerous experiment, which would practically result disastrously to the government.

THE CONTEST FOR JUDGESHIP OF THE COUNTY COURT.

Statements of Judge Talinferro and Mr. Catlett, the Candidates in the Primary Election-Their Respect-

The following statements from Judge 'aliaferro and Mr. Catlett, respectively, the candidates in the Gloucester primary for the nomination for County Judge, explain themselves:

Judge Talinferro's Statement. Gloucester, Va., November 8, 1897. To the Editor of the Dispatch;

I have been so closely confined for past few days by the illness of my father that so far I have been unable to express my position on the judgeship as you request.

I am giving myself no trouble about the matter; the question was left to a primary election. The primary was held election, and resulted in my favor, I receiving a majority of the votes cast. shall therefore go before the Democratic caucus of the General Assembly with the endorsement of the primary. Of course Mr. Catlett may refuse to abide by the result of the primary and go before the Mr. Catlett, the County Committee, nor any other power on earth can change the result of the primary. ver was the result.

Catlett's contention that other than Democratic voters voted in the primary has nothing to do with the matter. While I most positively state that I know of not a single instance where a man voted for me who did not vote the straight Democratic ticket in the general election, I know of many who came up to vote for me, but were not allowed to do so because they voted the Republican ticket. Whenever there was any doubt ticket. as to a voter's politics be was always asked how he had voted in the general election, and it was only on his positive statement that he had voted the Demo cratic ticket that he was allowed to vote for me, and this was in strict accordance with my understanding with the County Committee, ratified and positively approved by Mr. Catlett. I myself openly and repeatedly stated that I wanted none but Democratic voters to vote for me. may also say that among Mr. Catlett's warmest supporters were many who had been pronounced Republicans a short time ago. Very respectfully,

JAMES L. TALIAFERRO.

Gloucester Courthouse, Va., November 9, 1897. To the Editor of the Dispatch:

I submitted my claims for the judgecording to the plan adopted by the Demo-cratic County Committee, and never in any manner undertook to say who were entitled to vote in the primary and who not. My understanding was that the County Committee would settle all such questions, I certainly never expected lifelong Republicans, either white or black, to determine the result of the Democratic primary.

Dr. Jennison, who has made a life study

of stomach troubles, says: All forms of indigestion really amount to the same thing-that is, failure to completely di gest the food eaten; no matter whether the trouble is acid dyspepsia or sour stomach, belching of wind, nervous dys-pepsia, or loss of flesh and appetite; a person will not have any of them if the stomach can be induced by any natural harmless way to thoroughly digest what is eaten, and this can be done by a sim-ple remedy, which I have tested in hunple remedy, which I have tested in hundreds of aggravated cases with complete success. The remedy is a combination of fruit and vegetable essences, pure aseptic pepsin and golden seal put up in the form of pleasant tasting tablets and sold by druggists under the name of Stuart's Dyspepsia Tablets. One or two of these tablets should be taken after meals and allowed to dissolve in the mouth, and mingling with the food in the stomach, digests it completely before it has time to ferment, decay, and sour.

NEW YORK, November 9.- The tone of the market for stocks during the latter part of the day's trading was genuinely strong. There was steady having of be for long account, and in the final transactions the shorts were driven to cover quite urgently, carrying the level of prices strongly above last night's close, so that the net gains in nearly all active stocks are over a point, and in many cases, notably that of the Grangers and some of the Southern stocks, are nearly 2 points. The professional bear element was prepared for a continuance of their successful campaign of yesterday, and they set about raiding the market very soon after the opening, which showed fractional improvements, in sympathy with London

Sugar was the vulnerable point of at tack, and was driven down over 2 per cent. on ill-defined rumors of charges to be formulated of illegal entries of imported sugar.

The bears also succeeded in depressing New Jersey Central, Manhattan, and one or two other recently susceptible stocks, but the sympathetic decline brought about in the rest of the list was narrow and gave sufficient warning to the bears that they were not to have things their own way so unresistedly as yesterday. The Coalers showed a marked tendency

The southern railroads enjoyed the benefit of the very large cotton movement, which has resulted from the lifting of quarantines, and which has sent the price of cotton to nearly the lowest prices on record. The whole railway list also was strengthened by consideration of yester-Supreme Court decision, denying the right of the Interstate Commerce Commission to enforce absolutely long- and short-haul clause of the inter-state law. There was a marked subsidence of apprehension regarding the rela-tions with Spain, on account of Cuba, and an intimation came during the afternoon, after the Cabinet had gone into session at Washington, that an official announcement would be made of the expressed willingness on the part of Spain to accept the good offices of the United States in bringing about a settlement of

the Cuban question.
One of the strongest factors in the improved tone was the large and confident buying for London account. Money in London shows an easier tendency, and invites increased speculation. The Governor ordered a detail of the Governor's Guard to guard Evans. There are threats of lynching. The cotton-mill employees are particular

NEW YORK DRY-GOODS MARKET.

NEW YORK, November 9.—The drygoods market shows no sign of strength
over the record of yesterday and last
week. Further reductions in the price of
prints have been made. Reports from Fall
River say that the minufacturers have
almost decided on a reduction in wages.

The market for staple cotton continues
dull. In coarse colored cottons there is
also a weakening demand, with an exceedingly light demand recorded. Printcloths are still quoted at 25-16c., but the
bids yesterday were for small lots of
extras, at 2½c., which were refused by
manufacturers.

In prints the reductions in Americans
was succeeded by the following low prices,
made to take effect this morning: Central
Park shirtings, 3½c.; Trouville grays, 4c.;
and Peabody mournings, 4c. It is said
that several other agents will announce
reduced prices. In woollens and worsteds
the market is still undecided, another advance in certain lines of wool being announced, and manufacturers are inclined
to hold off a settlement of the price difficulty until later, when the matter of
cutting expenses will be decided.
